SECTION 4: First aid measures			

## 4.1. Description of first aid measures

General information	Move affected person to fresh air at once.
Inhalation	In case of inhalation of spray mist: Move person into fresh air and keep at rest. Remove affected person from source of contamination. If breathing stops, provide artificial respiration. Keep affected person warm and at rest. If in doubt, get medical attention promptly.
Ingestion	Immediately rinse mouth and provide fresh air. Do not induce vomiting. Get medical attention if any discomfort continues.
Skin contact	Wash skin thoroughly with soap and water. Remove contaminated clothing immediately and wash skin with soap and water.

Eye contact	Important! Immediately rinse with water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Continue to rinse for at least 15 minutes and get medical attention.
4.2. Most important symptoms	and effects, both acute and delayed
General information	The severity of the symptoms described will vary dependent on the concentration and the length of exposure.
4.3. Indication of any immediat	te medical attention and special treatment needed
Notes for the doctor	Treat symptomatically.
SECTION 5: Firefighting meas	ures
5.1. Extinguishing media	
Suitable extinguishing media	Foam. Dry chemicals. Water spray. Carbon dioxide (CO2).
5.2. Special hazards arising fro	om the substance or mixture
Specific hazards	In case of fire, toxic gases may be formed.
Hazardous combustion products	Highly flammable gases or vapours. During fire, toxic gases (CO, CO2) are formed. Vapours are heavier than air and may spread near ground and travel a considerable distance to a source of ignition and flash back.
5.3. Advice for firefighters	
Protective actions during firefighting	Use water to keep fire exposed containers cool and disperse vapours. If a leak or spill has not ignited, use water spray to disperse vapours and protect men stopping the leak. Water spray may be used to flush spills away from exposures and dilute spills to non-flammable mixtures. Use water spray to reduce vapours.
