

SAFETY DATA SHEET FIXT Engine Lacquer

| SECTION 1: Identification of the substance/mixture and of the company/undertaking | |
|-----------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.1. Product identifier | |
| Product name | FIXT Engine Lacquer |
| Product number | FX081233 |
| 1.2. Relevant identified uses of | f the substance or mixture and uses advised against |
| Identified uses | Lacquer |
| 1.3. Details of the supplier of the | ne safety data sheet |
| Supplier | Seymour Road Nuneaton Warwickshire CV11 4LB 02476 322 196 (T) 02476 322 117 (F) |
| | info@fixtconsumables.com |
| 1.4. Emergency telephone nun | |
| Emergency telephone | 02476 322 196 |
| SECTION 2: Hazards identifica | ation |
| 2.1. Classification of the substact Classification | ance or mixture |
| Physical hazards | Aerosol 1 - H222, H229 |
| Health hazards | Acute Tox. 4 - H332 Skin Irrit. 2 - H315 Eye Irrit. 2 - H319 STOT SE 3 - H336 STOT RE 2 - H373 |
| Environmental hazards | Aquatic Chronic 3 - H412 |
| Classification (67/548/EEC or 1999/45/EC) | Xi;R36. F+;R12. R66,R67. |
| Human health | Gas or vapour is harmful on prolonged exposure or in high concentrations. In high concentrations, vapours and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Deliberately concentrating and inhaling the contents of this container is dangerous and can be fatal. |
| Environmental | The product is not expected to be hazardous to the environment. |
| Physicochemical | Aerosol containers can explode when heated, due to excessive pressure build-up. The product is extremely flammable. When sprayed on a naked flame or any incandescent material the aerosol vapours can be ignited. |
| 2.2. Label elements Pictogram | |

Signal word

| Hazard statements | H222 Extremely flammable aerosol. H229 Pressurised container: may burst if heated H315 Causes skin irritation. H319 Causes serious eye irritation. H332 Harmful if inhaled. H336 May cause drowsiness or dizziness. H373 May cause damage to organs through prolonged or repeated exposure. H412 Harmful to aquatic life with long lasting effects. |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Precautionary statements | P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. P211 Do not spray on an open flame or other ignition source. P251 Do not pierce or burn, even after use. P271 Use only outdoors or in a well-ventilated area. P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. P102 Keep out of reach of children. P501 Dispose of contents/container in accordance with local regulations. P260 Do not breathe vapour/spray. P262 Do not get in eyes, on skin, or on clothing. |
| Supplemental label information | EUH066 Repeated exposure may cause skin dryness or cracking. |
| Contains | ACETONE, XYLENE, ETHYLBENZENE |

2.3. Other hazards

This product does not contain any substances classified as PBT or vPvB.

SECTION 3: Composition/information on ingredients

| 3.2. Mixtures | | |
|------------------------------|----------------------|-------------------------------------------------|
| ACETONE | | 30-609 |
| CAS number: 67-64-1 | EC number: 200-662-2 | REACH registration number: 01- 2119471330-49 |

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media Extinguish with foam, carbon dioxide, dry powder or water fog.

5.2. Special hazards arising from the substance or mixture

| · | |
|----------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Specific hazards | Containers can burst violently or explode when heated, due to excessive pressure build-up. Vapours are heavier than air and may spread near ground and travel a considerable distance to a source of ignition and flash back. Forms explosive mixtures with air. Extremely flammable aerosol. |
| 5.3. Advice for firefighters | |
| Protective actions during firefighting | Cool containers exposed to heat with water spray and remove them from the fire area if it can be done without risk. Use water to keep fire exposed containers cool and disperse vapours. Warn firefighters that aerosols are involved. |
| SECTION 6: Accidental releas | e measures |
| 6.1. Personal precautions, pro | tective equipment and emergency procedures |
| Personal precautions | Provide adequate ventilation. Use suitable respiratory protection if ventilation is inadequate. Avoid inhalation of vapours. |
| 6.2. Environmental precautions | 3 |
| Environmental precautions | Avoid the spillage or runoff entering drains, sewers or watercourses. Contain spillage with sand, earth or other suitable non-combustible material. |
| 6.3. Methods and material for | containment and cleaning up |
| Methods for cleaning up | Eliminate all sources of ignition. No smoking, sparks, flames or other sources of ignition near spillage. Provide adequate ventilation. Leave small quantities to evaporate, if safe to do so. Do not allow material to enter confined spaces, due to the risk of explosion. Absorb spillage with non-combustible, absorbent material. |
| 6.4. Reference to other section | IS |
| Reference to other sections | For personal protection, see Section 8. For waste disposal, see Section 13. |
| SECTION 7: Handling and sto | rage |
| 7.1. Precautions for safe hand | ling |
| Usage precautions | Read and follow manufacturer's recommendations. Keep away from heat, sparks and open flame. Do not spray on a naked flame or any incandescent material. Eliminate all sources of ignition. |
| 7.2. Conditions for safe storage | e, including any incompatibilities |
| Storage precautions | Keep away from heat, sparks and open flame. Store at moderate temperatures in dry, well ventilated area. Pressurized container: protect from sunlight and do not expose to temperatures exceeding 50°C. Do not pierce or burn, even after use. |
| 7.3. Specific end use(s) | |
| Specific end use(s) | The identified uses for this product are detailed in Section 1.2. |
| SECTION 8: Exposure Control | s/personal protection |
| 8.1. Control parameters | |
| Occupational exposure limits | |
| ACETONE | $M(r T M(A)) = M(r) = 500 \text{ ppm} = 1210 \text{ mg/m}^3$ |

Long-term exposure limit (8-hour TWA): WEL 500 ppm 1210 mg/m³ Short-term exposure limit (15-minute): WEL 1500 ppm 3620 mg/m³

PETROLEUM GASES, LIQUEFIED; PETROLEUM GAS

Long-term exposure limit (8-hour TWA): WEL 1000 ppm 1750 mg/m³ Short-term exposure limit (15-minute): WEL 1250 ppm 2180 mg/m³

XYLENE

Long-term exposure limit (8-hour TWA): WEL 50 ppm 220 mg/m³ Short-term exposure limit (15-minute): WEL 100 ppm 441 mg/m³ Sk

ETHYLBENZENE

Long-term exposure limit (8-hour TWA): WEL 100 ppm(Sk) 441 mg/m3(Sk) Short-term exposure limit (15-minute): WEL 125 ppm(Sk) 552 mg/m3(Sk) WEL = Workplace Exposure Limit Sk = Can be absorbed through the skin.

XYLENE (CAS: 1330-20-7)

|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| PNEC | This product is a UVCB substance and its composition will be variable, so reported properties may vary or require a range of values to describe them. - Fresh water; 0.327 mg/l - Marine water; 0.327 mg/l - Intermittent release; 0.327 mg/l - STP; 6.58 mg/l - Sediment (Freshwater); 12.46 mg/kg - Sediment (Marinewater); 12.46 mg/kg - Soil; 2.31 mg/kg |
| 8.2. Exposure controls | |
| Appropriate engineering controls | Provide adequate ventilation. Avoid inhalation of vapours and spray/mists. Observe any occupational exposure limits for the product or ingredients. |
| Personal protection | When using do not smoke. |
| Eye/face protection | Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles. |
| Hand protection | Due to the packaging form, aerosol, risk of skin contact is small. Chemical-resistant, impervious gloves complying with an approved standard should be worn if a risk assessment indicates skin contact is possible. The most suitable glove should be chosen in consultation with the glove supplier/manufacturer, who can provide information about the breakthrough time of the glove material. |
| Hygiene measures | Wash hands after handling. Wash promptly if skin becomes contaminated. Wash hands at the end of each work shift and before eating, smoking and using the toilet. Use appropriate hand lotion to prevent defatting and cracking of skin. |
| Respiratory protection | If ventilation is inadequate, suitable respiratory protection must be worn. |
| SECTION 9: Physical and Che | mical Properties |

9.1. Information on basic physical and chemical properties

| Appearance | Aerosol. |
|-----------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Colour | Clear. |
| Odour | Organic solvents. |
| Flash point | < -40°C |
| Upper/lower flammability or explosive limits | Lower : 1.8% - Upper 9.5% |
| Auto-ignition temperature | 410-580°C |
| Comments | Information given is applicable to the major ingredient. |
| 9.2. Other information | |
| Other information | Not available. |
| Volatile organic compound | This product contains a maximum VOC content of 675 g/l. |
| SECTION 10: Stability and rea | activity |
| 10.1. Reactivity | |
| Reactivity | Stable at normal ambient temperatures and when used as recommended. |
| 10.2. Chemical stability | |
| Stability | Avoid the following conditions: Heat, sparks, flames. |
| 10.3. Possibility of hazardous | reactions |
| Possibility of hazardous reactions | Does not decompose when used and stored as recommended. |
| 10.4. Conditions to avoid | |
| Conditions to avoid | Avoid heat, flames and other sources of ignition. Avoid exposing aerosol containers to high temperatures or direct sunlight. |
| 10.5. Incompatible materials | |
| Materials to avoid | Keep away from oxidising materials, heat and flames. |
| 10.6. Hazardous decomposition | on products |
| Hazardous decomposition products | Does not decompose when used and stored as recommended. Thermal decomposition or combustion products may include the following substances: Toxic and corrosive gases or vapours. |
| SECTION 11: Toxicological in | formation |
| 11.1. Information on toxicologi | cal effects |
| Acute toxicity - dermal ATE dermal (mg/kg) | 4 217 70 |
| | 4,217.79 |
| Acute toxicity - inhalation ATE inhalation (gases ppm) | 19,171.78 |
| ATE inhalation (vapours mg/l) | |
| ATE inhalation (dusts/mists mg/l) | 65.73 |
| | |

FIXT Engine Lacquer

| General information | Deliberately concentrating and inhaling the contents of this container is dangerous and can be fatal. |
|------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Inhalation | In high concentrations, vapours and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness and nausea. Unconsciousness, possibly death. |
| Skin contact | Repeated exposure may cause skin dryness or cracking. |
| Eye contact | Irritating to eyes. Vapour or spray in the eyes may cause irritation and smarting. Repeated exposure may cause chronic eye irritation. |
| Acute and chronic health hazards | Arrhythmia (deviation from normal heart beat). In high concentrations, vapours and aerosol mists have a narcotic effect and may cause headache, fatigue, dizziness and nausea. |
| Route of entry | Inhalation |
| Target organs | Central nervous system Respiratory system, lungs |
| Medical symptoms | Arrhythmia (deviation from normal heart beat). Narcotic effect. Vapours may cause drowsiness and dizziness. Skin irritation. |
| SECTION 12: Ecological Infor | mation |
| Ecotoxicity | The product components are not classified as environmentally hazardous. However, large or frequent spills may have hazardous effects on the environment. |
| 12.1. Toxicity | |
| Toxicity | Not available. |
| 12.2. Persistence and degrada | ability |
| Persistence and degradability | Not available. |
| 12.3. Bioaccumulative potentia | |
| Bioaccumulative potential | Not available. |
| 12.4. Mobility in soil | |
| Mobility | Not known. |
| 12.5. Results of PBT and vPvI | 3 assessment |
| Results of PBT and vPvB assessment | Not available. |
| 12.6. Other adverse effects | |
| Other adverse effects | Not available. |
| SECTION 13: Disposal consid | erations |
| 13.1. Waste treatment method | |
| General information | Do not puncture or incinerate, even when empty. |
| Disposal methods | Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. Containers should be thoroughly emptied before disposal because of the risk of an explosion. Empty containers must not be punctured or incinerated because of the risk of an explosion. |
| SECTION 14: Transport inform | nation |

SECTION 14: Transport information

| General | This product is packed in accordance with the Limited Quantity Provisions of CDGCPL2, ADR and IMDG. These provisions allow transport of aerosols of less than 1 litre packed in cartons of less than 30kg gross weight to be exempt from control providing that they are labelled in accordance with the requirements of these regulations to show that they are being transported as Limited Quantities. Aerosols not so packed and labelled must show the following. |
|--------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 14.1. UN number | |
| UN No. (ADR/RID) | 1950 |
| UN No. (IMDG) | 1950 |
| UN No. (ICAO) | 1950 |
| 14.2. UN proper shipping name | 9 |
| Proper shipping name (ADR/RID) | AEROSOLS |
| Proper shipping name (IMDG) | AEROSOLS |
| Proper shipping name (ICAO) | AEROSOLS |
| Proper shipping name (ADN) | AEROSOLS |
| 14.3. Transport hazard class(e | <u>s)</u> |
| ADR/RID class | 2.1 |
| ADR/RID label | 2.1 |
| IMDG class | 2.1 |
| ICAO class/division | 2.1 |
| Transport labels | |
| | |
| 14.4. Packing group | |
| Not applicable. | |
| 14.5. Environmental hazards | |
| Environmentally hazardous sul No. | bstance/marine pollutant |
| 14.6. Special precautions for u | ser |
| EmS | F-D, S-U |

EmS (D)

Tunnel restriction code

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Transport in bulk according to Not applicable. Annex II of MARPOL 73/78 and the IBC Code

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU legislation

Commission Regulation (EU) No 453/2010 of 20 May 2010.

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

| SECTION 16: Other informa | tion |
